

DHEERAJ SONEKAR

Software Engineer | MERN / Next.js | Node.js Specialist

Varanasi, India | +91 8858588160 | dheerajsonkar166@gmail.com

 LinkedIn  GitHub  Portfolio

Summary

Passionate Software engineer with:

- Developing scalable and secure web applications using the MERN/Next.js stack and Typescript.
- Strong backend expertise with Node.js, Express.js, MongoDB, and SQL.
- Hands-on freelance and internship experience deploying production-grade platforms.
- Integrated payments, real-time cart systems, role-based authentication (JWT), and CI/CD workflows.
- Fast learner and entrepreneurial mindset with end-to-end project ownership

Skills

Frontend: React.js, Next.js, Tailwind CSS, Bootstrap 5, HTML/CSS, JavaScript, Redux, TypeScript

Backend : Node.js, Express.js, MongoDB, Mongoose, SQL, REST APIs, WebSockets, Socket.IO, JWT

DevOps & Tools: Git, GitHub, Postman, VS Code, Render, Vercel, AWS, CI/CD pipelines, Jira

Integrations: Stripe, Razorpay, RESTful APIs

Work Experience

Software engineer

June 2024 – Present

Freelance – (Remote)

- Developed and delivered a full-stack School Management System with dashboards, auth, payments integration.
- Developing a website and mobile app for a Soya Paneer startup, covering backend, frontend with branding.
- Building a React Native (Expo) app with Node.js + MongoDB backend for scalable product management.
- Implementing and optimizing UX, and responsive design, ensuring scalable, production-ready delivery for multiple freelance clients.

Software Engineer Intern

Jan 2024 – May 2024

HashedBit Innovation – Gurugram(Remote)

- Developed and maintained 22+ dynamic, responsive pages for a full-scale EdTech platform.
- Designed robust backend systems using Node.js, Express.js, and MongoDB databases.
- Integrated RESTful APIs and implemented secure role-based authentication for user and admin flows.
- Implemented custom loaders and optimized frontend performance and UX using React.

Projects

Fresh Store Platform – E-commerce Delivery App || 1st July 2025 - 15th July 2025 ||

Tech Stack: MERN, Next.js, Tailwind CSS, JWT, SQL

- Built a multi-role system (customers, vendors, admin) with authentication, cart updates, real-time order tracking.
- Developed with two database system, PostgreSQL + mongodb for normal uses and payment uses seperately .

Charity Donation Platform – Backend-Focused Lightweight System || 12 June 2025 - 28 June 2025 ||

Tech Stack: Node.js, SQL, JWT, REST APIs

- Built a headless backend for secure donation tracking with JWT-based donor/admin authentication.
- Developed donor management modules, ensuring high performance through minimal architecture.

Education

Cluster Innovation Centre , University of Delhi (DU)

2020-2024

Bachelor of Technology-BTech - IT

CGPA: 8.34

Certifications

- Complete Web Developement Bootcamp, Udemy, 2023 
- Software Development Life Cycle, Great Learning, Sep 2023 
- Visual Studio , Great Learning , Jan 2023
